## UNDERSTANDING METER BOARD REQUIREMENTS

### UPGRADES TO METER BOARDS

This document assists customers with what is and is not included when they purchase either a minor, major or full meter board replacement with their solar system.

Ergon and the CEC outline these requirements also in their 2017 information for solar installations information package.

## SERVICES & PACKAGES

You may be required to purchase one of the following packages to make your system comply with the Ergon network requirements.. Ergon fees and charges cannot be quoted or sold from any solar retailers.

### MINOR UPGRADE - ISOLATION \$500

- Installation of isolation link
- Removal of off-peak meter
- Switch gear coupling and labelling if required
- Optional : installation of hot water timer

### MAJOR UPGRADE - SWITCH \$850

- Installation of new switch gear
- refurbish board if required
- Minor upgrades as listed above
- Change faulty fuses if required

### REPLACEMENT - STARTING FROM \$1300

- Minor and major upgrades
- New meter board
- Relocate if required
